News about Ceca and our community of honored caregivers

Meet Ceca Award Winner **Joyce Montgomery** Social Worker, Capital Caring-Merrifield

“Joyce has been a tremendous support and encourager to me and those she interacts with on a daily basis. She is the cheerleader of our team. She is like a ray of sunshine when she walks in a room. Her enthusiasm is contagious. She has a sensitivity that touches the hearts of patients and families.”

Q: How did it feel to be selected as a Ceca Award Honoree?

A: I honestly have never felt so special and it felt great! A little embarrassing because as I looked around the room I saw so many people that deserve the award, as well! It is nice to think maybe I will motivate others to do good things beyond what is expected!

Q: What's one piece of advice you would give to your fellow caregivers?

A: Serve from your heart.

Q: What are your thoughts on the Ceca Award Program?

A: I feel it is very encouraging for the recipient and other employees. It is interesting to hear about the many creative ways our staff served our patients and families. It makes me proud of my colleagues.
